Bob Ellis reports 200 Cowbirds yesterday.

7:05 A.M.

✓ Black-billed ~~Cuckoo~~ Magpie flew E-W across our backyard & the meadow, about 30-40' up — could note general coloration, tail longer than body, large white wing-patches, wing beat, etc. about 1:10 P.M. I called "Voice of the Naturalist" (recorded at noon today). They reported a B-b. Magpie seen at Rt. 123 & Braddock Rd. (about 5 mi. away by air-line) "this morning." Probably an escapee. Bob Ellis may have seen it yesterday.

76° at airport - broke 80 year old record for this date!

2 About 10,000 "flackbirds" on our front lawn & roofs today - probably 98% were C. Grackles - plus many Red-wings & some Cowbirds. Also saw more than 200 Red-wings in a flock.

3 Two Red-shoulders in great courtship display all day - in our back yard & around Pond.
